

Press release

The New Swiss Endo Academy Training Centre

FKG Dentaire is proud to announce the opening of its new Training Centre in Dubai

La Chaux-de-Fonds, February 2018.

FKG Dentaire SA (La Chaux-de-Fonds, Switzerland), leader in innovation and production of high-tech rotary Ni-Ti systems, is highly committed in worldwide Continuing Education for dentists.

After having set up its Training Centre in 2014 (Swiss Endo Academy), based at the company's headquarters, FKG Dentaire is proud to announce a new Continuing Education Centre, located at its representative office, FKG Dentaire DMCC (Dubai, UAE).

This Centre exhibits the latest generation of high-end equipment (operating microscopes, phantom heads,...) and offers a real simulation laboratory, allowing general dentists and specialists, to enhance their clinical experience while exposed to the latest endodontics Ni-Ti systems, more particularly to 3D Ni-Ti treatments range: the XP-Endo® sequence.

The centre of the Swiss Endo Academy in Dubai has been inaugurated on February 5, just before the AEEDC congress, in the presence of the top management of the mother-company and the entire IMEA team of FKG Dentaire.

Training table with 24 seats, monitors, FKG training kits, Endo motor and Apex Locator, Labomed Microscopes, Phantom Heads, Surgery LED lights, Dental Stools

Training table and center view

Lecture room with high definition projector

Training set up with FKG Rooter S (Endo Motor), S-Apex (Apex Locator), Training kit and obturation devices

Olivia MULHAUSER (Office Manager & Sales Assistant – IMEA) and Alexandre MULHAUSER (Middle East, Africa and India Director)

About FKG Dentaire SA:

Founded in Switzerland in 1931, FKG Dentaire SA gained a new momentum in 1994, when the Rouiller family took over the reins of the company. The family propelled FKG to the forefront in the development, manufacturing and distribution of dental products destined for general practitioners, endodontists and laboratories. The FKG strategy is centered on innovative high-precision products and the creation of machines designed specifically for the dental field. Its aim is to offer solutions that meet the most demanding needs of end users.
