

FKG Dentaire Sàrl is at the forefront of the development, manufacture and distribution of high precision dental products for dentists, endodontists and laboratories.

To complete our R&D team in La Chaux-de-Fonds, we are looking for a

Senior R&D Project Manager

Your responsibilities :

- Develop and bring new medical devices to the market
- Set up and lead the project teams by organizing, assigning tasks and deadlines to project members, and ensuring follow-up
- Assist the head of R&D in scientific/technology and surveillance efforts as well as in the assessment of new product and project ideas
- Ensure the adequacy of production processes needed for new products
- Translate user needs, product claims and marketing specifications into functional (technical) specifications
- Establish project timeline and costs based on available resources
- Manage and formalize all product verification and design validation efforts
- Report on a regular basis on project progress and related issues to the head of R&D and Management Team, or if applicable to the ad hoc steering committee
- Setup and maintain project and product documentation
- Supervise projects and maintain documentation related to product changes/improvements.
- Support the Product Managers and Sales force as technical expert, including after the market launch

Your profile :

- University degree in microtechnics, mechanical, mechatronic or material science engineering
- 5-10 years of professional experience in a similar function in the medical device industry
- Proven strong organizational and project management
- Ability to read and interpret scientific literature
- Ability to lead change and evolve in a mutating environment
- Fluent French and English, both written and spoken
- Expert use of Microsoft-Office tools
- Strong drive for results and achievements
- Synthetic and analytical mindset
- Strong influential and communication skills, ability to interact frequently and efficiently with internal and external stakeholders in R&D and product management

Have we sparked your interest and motivation to join a dynamic team in a fast-growing and changing environment? Then we are looking forward to receiving your application at : rh@fkg.ch.
